What *IS* That?

"The Persecuted Church" will teach us how Christians are being persecuted in countries where Christianity is unpopular or even against the law, so that we can know what's going on and how to pray specifically for them.

"Current Issues for the Christian Woman" will make us aware of issues in our ever-changing society that impact us as Christian women.

"Missions Night" is a monthly meeting devoted to planning and implementing various upcoming missions events.

"Book Review" is a monthly review of selected Christian literature conducted by a member of the WOM group. You choose whether to read the book first or wait to hear the book review. Each book will be placed in the church library.

Honey, You've Changed Something...

The WOM group has a new format to include:

- More hands-on missions work
- Monthly discussion of Christian issues that affect us
- Monthly Book Review and Bible Study
- More opportunities to connect to our community and to enrich our Christian lives.
